The Globalization of War

America's « Long War » against Humanity

by Michel Chossudovsky

Professor Chossudovsky's latest book describes America's hegemonic project in the post 9/11 whereby the U.S.-NATO military machine —coupled with covert intelligence operations, economic sanctions and the thrust of "regime change"— is deployed in all major regions of the world. The threat of pre-emptive nuclear war is also used to black-mail countries into submission.

There is an intimate relationship between the Globalization of War and the Economic Crisis. This "Long War against Humanity" is carried out at the height of the most serious economic crisis in modern history. It is intimately related to a process of global financial restructuring, which has resulted in the collapse of national economies and the impoverishment of large sectors of the World population.

Michel Chossudovsky views « economic conquest » as an integral part of the US military agenda. The US military and intelligence apparatus consults with Wall Street and the Texas oil conglomerates. Conversely the IMF and the World Bank are in permanent liaison with the Pentagon and the US State Department.

The Globalization of War: America's « Long War » against Humanity:

America's hegemonic project in the post 9/11 era is the "Globalization of War" whereby the U.S.-NATO military machine —coupled with covert intelligence operations, economic sanctions and the thrust of "regime change"— is deployed in all major regions of the world. The threat of pre-emptive nuclear war is also used to black-mail countries into submission.

This "Long War against Humanity" is carried out at the height of the most serious economic crisis in modern history.

It is intimately related to a process of global financial restructuring, which has resulted in the collapse of national economies and the impoverishment of large sectors of the World population.

The ultimate objective is World conquest under the cloak of "human rights" and "Western democracy".

Reviews:

"Professor Michel Chossudovsky is the most realistic of all foreign policy commentators. He is a model of integrity in analysis, his book provides an honest appraisal of the extreme danger that U.S. hegemonic neoconservatism poses to life on earth."

Dr. Paul Craig Roberts, former Assistant Secretary of the U.S. Treasury

"The Globalization of War" comprises war on two fronts: those countries that can either be "bought" or destabilized. In other cases, insurrection, riots and wars are used to solicit U.S. military intervention. Michel Chossudovsky's book is a must read for anyone who prefers peace and hope to perpetual war, death, dislocation and despair."

Hon. Paul Hellyer, former Canadian Minister of National Defence

“Michel Chossudovsky describes globalization as a hegemonic weapon that empowers the financial elites and enslaves 99 percent of the world’s population.

“The Globalization of War” is diplomatic dynamite – and the fuse is burning rapidly.”

Michael Carmichael, President, the Planetary Movement

The Global Economic Crisis: The Great Depression of the XXI Century:

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a “war without borders” led by the U.S. and its NATO allies.

This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken.

Each of the authors in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people’s lives.

The complex causes as well as the devastating consequences of the economic crisis are carefully scrutinized with contributions from Ellen Brown, Tom Burghardt, Michel Chossudovsky, Michael Hudson, Tanya Cariina Hsu, James Petras, Peter Phillips, Peter Dale Scott, Claudia Van Werlhof and Mike Whitney.

Reviews:

“This important collection offers the reader a most comprehensive analysis of the various facets – especially the financial, social and military ramifications – from an outstanding list of world-class social thinkers.”

-Mario Seccareccia, Professor of Economics, University of Ottawa

“In-depth investigations of the inner workings of the plutocracy in crisis, presented by some of our best politico-economic analysts. This book should help put to rest the hallucinations of ‘free market’ ideology.”

-Michael Parenti, author of God and His Demons and Contrary Notions

“Provides a very readable exposé of a global economic system, manipulated by a handful of extremely powerful economic actors for their own benefit, to enrich a few at the expense of an ever-growing majority.”

-David Ray Griffin, author of The New Pearl Harbor Revisited.
