The death toll from the Nice attacks on the 14th of July, 2016 is rising.

Latest reports suggest 84 deaths and possibly one hundred more injured. There have been reports of gunfire and the driver of the truck which drove into the crowd near the beach in Nice is reported to have been shot dead.

Once again (as with the Charlie Hebdo and Bataclan attacks) there is no-one to stand trial and truthfully answer the questions that need to be asked - who and why?

At this point, there is not much that can be verified about the attack.

One cannot exclude the possibility that it may have simply been the action of an insane individual. Atrocities of that type are rare but have happened in the past. But there is, however, the strong suggestion and indeed likelihood that this atrocity is a terrorist attack by 'Islamists'. So, what does all this mean?

French domestic intelligence (DGSI) chief Patrick Calvar [warned on the 26th of June 2016](#) that an 'Islamist' attack on French children would be the trigger for a civil war. He said France was currently on the brink of that civil war. [Calvar also predicted](#) that ISIS (Da'esh) would use trucks as weapons. It is not unusual in the never-ending war on terror to hear accurate predictions by intelligence officials before attacks, with the same officials seemingly powerless to prevent them.

This 'uncanny coincidence' could be the defining event of our time.

French Prime Minister, Manuel Valls is on record stating that the state of emergency in France would be permanent.

There has been increasing pressure on the Hollande regime in France to change course in the Middle East. Attempts to reconcile with Russia and lift the sanctions have been blocked by Hollande and Valls.

I believe this is the trigger for a civil war French intelligence warned us about. The question is whether the war will become high intensity or continue on a relatively low-intensity trajectory. There have been police ['whistleblowers'](#) in France who have warned of huge caches of arms in major cities, capable of arming hundreds of thousands of men. However,

one must be cautious in referring to such 'whistleblowers' as they have proven to be highly unreliable and may be spreading disinformation.

In any case, the public's belief that we are in a 'state of war' and that all military interventions abroad are therefore necessary will be enough to make citizens look to the state for protection – an oligarchic state which is currently pursuing a brutal class war against workers.

As 90 percent or more of intelligence operations today involve media disinformation, we cannot possibly assume that any of the reports we are hearing are accurate. However, it is hard to see how a psyop could have been carried out in the Promenade des Anglais which is so central in Nice. What we can say for sure is that the attack serves the two constants of the war on terror dialectic. The narrative would read as follows:

1. Make the state of emergency permanent, empowering the oligarchic state and further demoralising citizens by dividing the working class along religious and racial lines. This is part of NATO's 'strategy of tension' in accordance with the longstanding intelligence operation [Gladio](#). Citizens must turn to the anti-social state for 'security', thus precluding social revolt.
2. Justify an all out attack on Syria to finish the job of destroying Arab civilisation, in accordance with US-NATO-Israel geopolitical interests. Only the willfully ignorant could possibly believe that ISIS is an enemy of France when the French have never had better relations with the country which openly backs them – Saudi Arabia. The intelligence reports, declassified documents and admissions of the highest officials of the French and American governments all confirm that ISIS is Israel's Arab legion.

Both those two above-mentioned goals serve the interests of US-NATO-Israel and until the French people liberate themselves from its yoke, Zionism will continue to poison the minds of men, making them consent to policies that no honest and compassionate human being would countenance.

An awakening of working-class militancy is occurring but the labour movement in France remains divided and led by social-democratic reformists. Now, more than ever, seeing the link between terrorism and class war is essential if any political and social change is to occur. In an era of high-finance treason, oligarchy, austerity, and the triumph of avarice, terror increasingly becomes a feature of the normal rather than an exceptional exercise of state power.
